Ajmer Steel Works Website

Client Details, Interview and Website Plan

CLIENT PROFILE

Business name	Ajmer Steel Works	**Owner**	Dhruv Tanwar
Business type	All types of steel works	**Address**	Dhan Nadi Road, Ajmer, Rajasthan, India
Products	Steel almirahs, steel windows and other steel products / custom steel work	**Prepared by**	Himanshu Sharma and Rajvardhan Singh
Main goal	To bring the business online and showcase our steel products to customers.	**Project**	BCA Semester 1 college website project

Main Goal of the Website

The main goal is to make Ajmer Steel Works' steel products available to explore online. The website will introduce the business, display product photos and descriptions, explain the services offered, and make it easier for potential customers to contact the business about products and custom work.

Client Interview: Questions and Project Findings

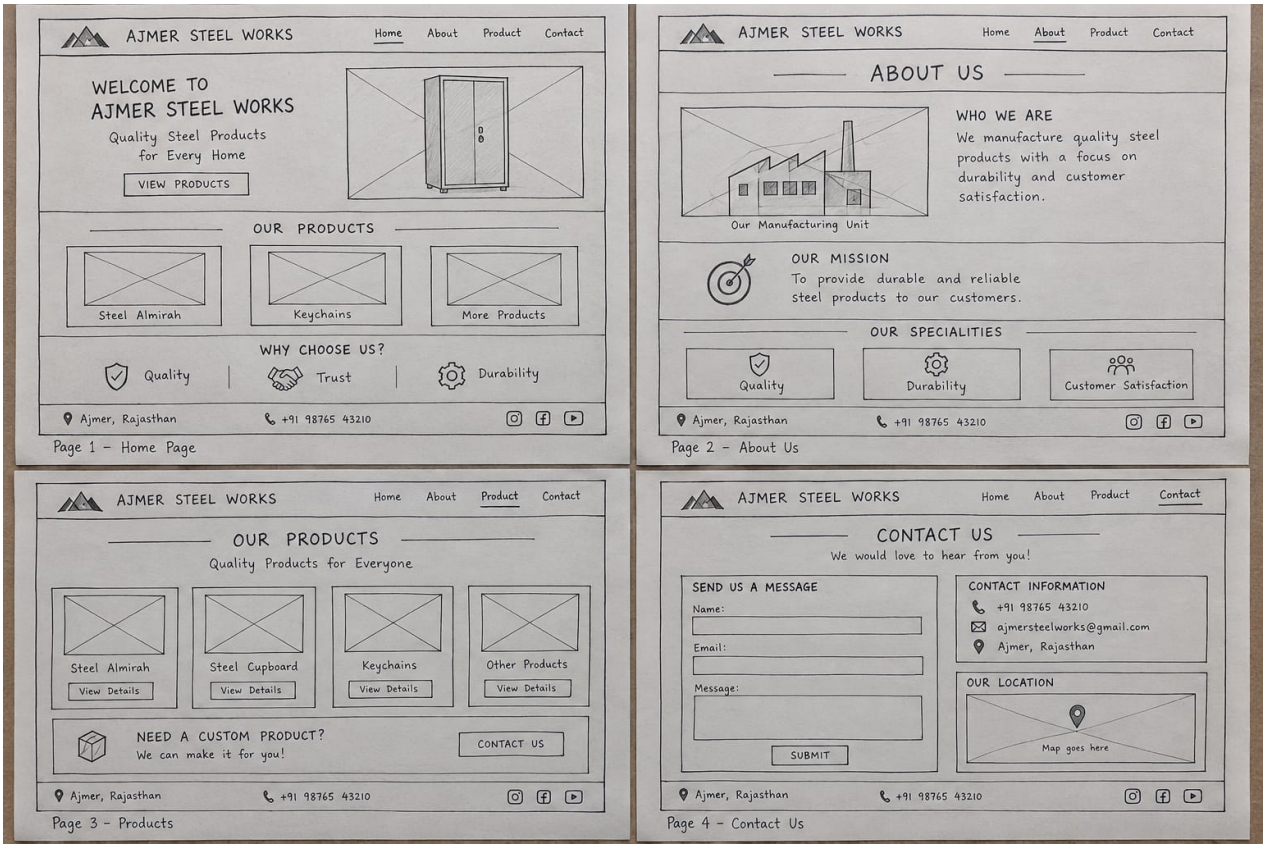

QUESTION	CLIENT NEED / RESPONSE	PROBLEM IDENTIFIED
How do customers find out about the business?	Customers may learn about the business through the shop, recommendations and direct contact.	There is no single website where customers can explore the business and products.
What difficulty do customers face when looking for products?	They may need to visit or contact the business to ask about products, sizes and availability.	Customers cannot browse the product range online before contacting the shop.
Why is a website useful for the business?	A website can provide a simple online presence and help customers discover products.	Customers need an easy, central source of business and product information.
What products should be shown?	Steel almirahs, steel windows and other steel products or custom steel work.	Products need clear images, names and short descriptions.
What should the website help customers do?	View products, learn about the business and send an enquiry.	Contact details and an enquiry option should be easy to find on mobile and desktop.

Planned website sections: Home, About Us, Products, Product Details and Contact Us.

Wireframes, Design Choices and Testing

Updated using the Ajmer Steel Works wireframe supplied for this project

Hand-drawn Wireframes

The supplied wireframe shows four main pages: Home, About Us, Products and Contact Us. The design includes a product showcase, business introduction, key service qualities, contact details and an enquiry form. Product detail views can be linked from the Products page.

Colour and Font Choices

COLOUR	HEX CODE	PLANNED USE
Royal Navy Blue	#101D35	Header, footer, navigation and cards; gives a professional, trustworthy look.
Deep Dark Navy	#080D1A	Dark backgrounds and hero sections; provides contrast.
Gold	#D4AF37	Headings, buttons, borders and highlights.
Soft Gold	#E0BF68	Secondary headings and hover accents.
Warm Beige	#F5E6C8	Warm supporting backgrounds and readable text accents.

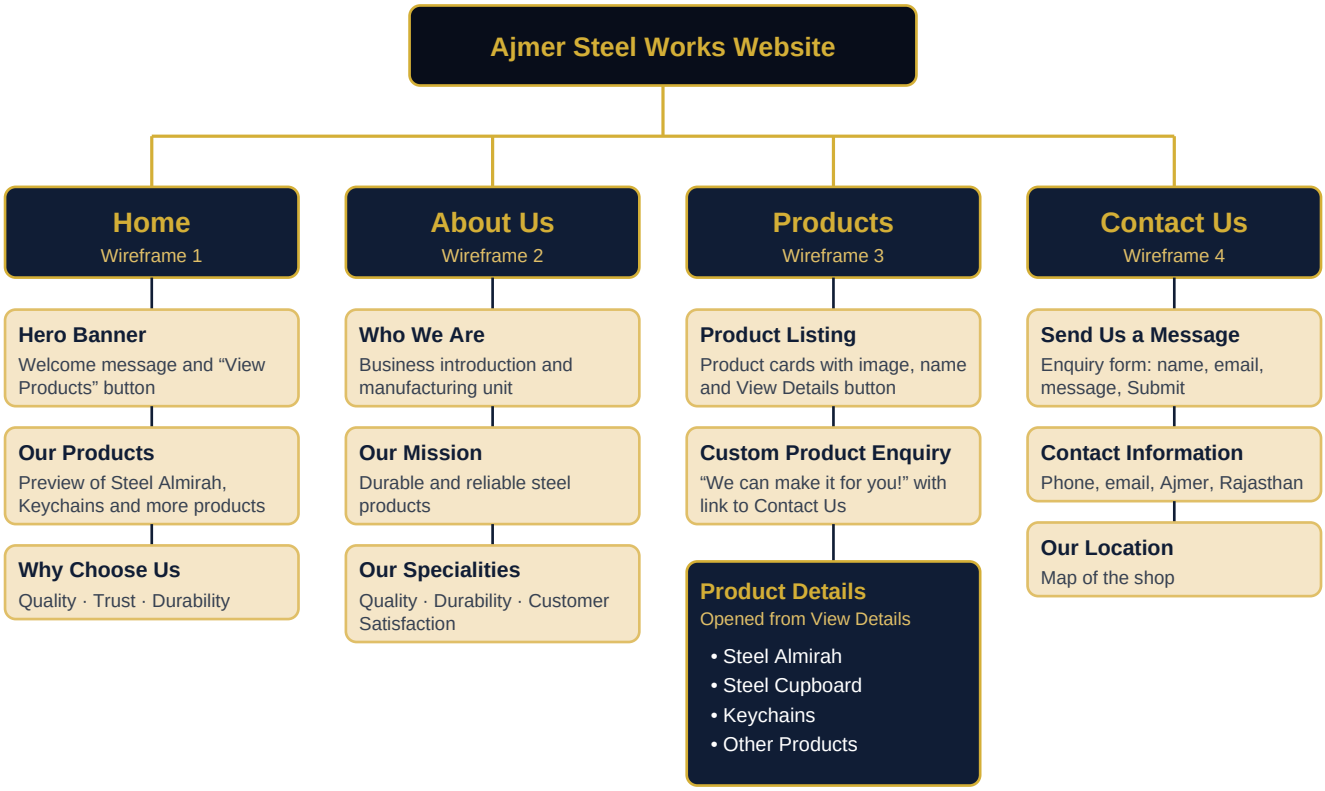

Fonts: Playfair Display for headings to create a formal, established feel; Poppins for body text to keep paragraphs and product descriptions clear on mobile and desktop.

Testing Plan

After implementation, validate the HTML with the W3C HTML Validator and test the website on mobile and desktop. Run Lighthouse to review performance, accessibility, best practices and SEO. Results should be recorded after the Ajmer Steel Works website has been built and tested.

Website Sitemap

Page structure of the Ajmer Steel Works website, based on the supplied wireframe

Shown on every page

Footer: Ajmer, Rajasthan, phone number and social media icons

Main page Section on the page Website root / detail page

Client Permission Note

Ajmer Steel Works | Website Development for Educational Purposes

CLIENT CONSENT LETTER

Date: _____

To whom it may concern,

I, Dhruv Tanwar, owner/authorized representative of Ajmer Steel Works, hereby give my permission to Himanshu Sharma and Rajvardhan Singh, students of BCA Semester 1, to develop a website for my business as part of their college project.

The purpose of this project is to bring my business online, showcase our steel products, provide information about our business, and help potential customers learn about our products and services.

I understand that this website is being developed for educational purposes as a student project. I give my consent to use my business name, logo, product images, and relevant business information for this project, subject to my approval.

I appreciate their efforts to promote digital awareness and help local businesses establish an online presence.

Sincerely,

Owner's name: Dhruv Tanwar	Signature: _____
Business: Ajmer Steel Works	Date: _____
